

NANA PATIPE MARTHE

AI DATA QUALITY | DATA ANNOTATION | AI EVALUATION | QA

Douala, Cameroon | marthepatipe@gmail.com

LinkedIn: Available on request

PROFESSIONAL SUMMARY

Computer Science graduate with 15+ years of experience across information management, operations coordination, business reporting, data analysis, quality assurance, and functional testing. Strong foundation in AI data quality and annotation through structured training and hands-on practice, with skills in data labeling, validation, information verification, fact checking, guideline compliance, analytical reasoning, and human-in-the-loop workflows. Native French speaker with experience working carefully with structured information and a strong focus on accuracy, consistency, and quality.

AI & DATA QUALITY CORE SKILLS

- | | | | |
|--|-------------------------------------|--|-------------------------------------|
| • AI Data Annotation & Data Labeling | • Data Validation & Quality Control | • Information Verification & Fact Checking | • AI Response / Content Evaluation |
| • Guideline Compliance & Consistency | • Analytical & Critical Reasoning | • Attention to Detail | • Human-in-the-Loop (HITL) |
| • Text, Image, Audio & Video Annotation Concepts | • Quality Assurance (QA) | • Functional Testing & Defect Reporting | • Internet Research & Documentation |

AI DATA ANNOTATION & EVALUATION TRAINING

AI Data Annotation / AI Quality Training — Self-Directed Professional Development

Completed structured training covering the AI data lifecycle and professional annotation practices, including classification, tagging, segmentation, NLP text annotation, image annotation, audio/video annotation, geospatial data annotation, quality control, productivity, guideline compliance, and practical work with Label Studio.

- Data types: structured, unstructured, and multimodal; text, image, audio, and video.
- NLP: named entity recognition, sentiment and intent classification concepts.
- Computer vision: bounding boxes, segmentation and object-labeling concepts.
- Audio/video: transcription, timestamping, diarization and quality-review concepts.
- Professional annotation: precision, consistency, escalation of ambiguity, and QC.

PROFESSIONAL EXPERIENCE

GROUPE DJOUWE — Douala, Cameroon | Accounting Assistant | External Relations Officer | Operations Coordinator | 2015–2024

- Coordinated operational activities across three business entities and supported cross-functional teams.
- Monitored inventory, procurement, sales, production and operational information for accuracy and consistency.
- Produced monthly management reports and recurring inventory reports using Microsoft Excel and Sage Saari.
- Maintained reliable records, identified inconsistencies, and supported management decision-making.
- Supervised teams of up to 20 employees and coordinated day-to-day operational processes.

GESTRAS SARL — Douala, Cameroon | Administrative & Accounting Assistant | External Relations Officer | 2013–2015

- Managed administrative documentation and operational information with attention to accuracy.
- Supported reporting, coordination, communication and record-keeping activities.

LYCÉE DE MAKEPE & COLLÈGE CHARLES DE GAULLE — Douala, Cameroon | Computer Science Teacher | 2010–2013

- Delivered computer science instruction and strengthened analytical, technical and communication skills.
- Explained technical concepts clearly and supported learners through structured problem-solving.

VECTOR INTER CORP | Functional Analyst Intern | 2009–2010

- Participated in functional analysis, software documentation and user-requirement validation.
- Developed analytical reasoning and attention to detail through requirements review and documentation.

AES SONEL | Quality Assurance (QA) / Functional Testing Intern | 2007–2008

- Performed functional testing of software applications and validated expected results.
- Identified and reported defects and supported quality assurance activities.
- Contributed to software reliability and data-accuracy checks.

RELEVANT AI / DATA QUALITY PROJECT PRACTICE

AI Data Annotation Practice — Applied annotation principles across text, image, audio and video scenarios; practiced labeling, validation, guideline adherence and quality review using training exercises and Label Studio concepts.

Information Verification & AI Evaluation Practice — Practiced checking factual consistency, relevance, language quality, reasoning, cultural context and potential hallucinations in AI-related evaluation scenarios.

Data Analysis & Reporting Portfolio — Built Excel and Power BI portfolio work involving data cleaning, transformation, KPI creation, dashboard design, sales/profit analysis and business insights.

DATA ANALYTICS & TOOLS

Microsoft Excel (Advanced) | Power Query | Power BI | DAX (Intermediate) | KPI Development | Dashboard Design | Data Visualization | Business Reporting | Sage Saari | Label Studio

EDUCATION

Bachelor of Technology (Licence) in Computer Science — Software Engineering | IUT, University of Douala | 2010

LANGUAGES

French — Native | English — Intermediate

PROFESSIONAL STRENGTHS

Accuracy • Attention to detail • Consistent guideline application • Analytical reasoning • Quality mindset • Reliability • Clear communication • Remote-work discipline • Confidentiality
